**Description of Work To Be Performed**

The following is the current schedule of activities and anticipated completion dates. Any circumstances that may alter the dates further should be discussed with the OSC.

- Maintain functionality and cleanliness of a personnel decontamination area.
- Provide internet service.
- Provide potable water service for the office.
- Provide adequate supplied air for all workers.
- Provide security guards for off-hours, including weekends and holidays.
- Provide for waste management of on-site operations.
- Review analytical data and generate bids for transport and disposal of materials.
- Bulk weak acid waste group.
- Manage personnel during Level B operations to ensure appropriate PPE is used and Site protocols are followed to safely enter the hot zone, open containers, evaluate them, and generate appropriate documentation on finding.
- Maintain the drum segregation area, or drum field, by hazardous class.
- Continue overpacking of containers that are leaking or deemed high-hazard.
- Continue the collection of composite samples for disposal purposes.
- Prepare acid, base, flammable waste streams for disposal.

Continue to provide OSC with 1900-55's, offsite hour reports, and daily activity reports. **Draft 1900-55s shall be delayed no more than 2 weeks of services.**

Follow Region 2 Green policies to include recycling of paper waste. Follow recommendations outlined in Region 2 *Clean and Green* Policy. This includes authorization for additional electrical charges which are supplemented by alternative energy sources.

Ensure the Health and Safety of all Kemron personnel on-site.

**I certify that the above work is ordered and authorized in the performance of the above cited Task Order.**
